Hacker Halted

WHY ARE WE DOING THIS?

Are you committed to levelling up in Windows Security? Good, so are we.

What excites us the most is turning professionals into key experts. We like to think that

our experience is YOUR shortcut.

You see, according to the industry's statistics, by 2019 the market will be short of over 1

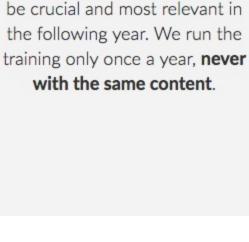

### million (!) security experts with skills needed to effectively protect the system.

**HACKER** 

tech-days

We want to change it. That's why we created a certification program "Advanced Windows Security Course for 2017".

**HOW IS THIS TRAINING DIFFERENT FROM OTHERS?** 

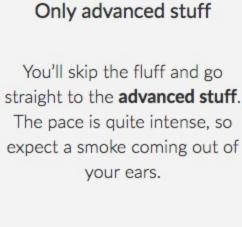

Only once a year

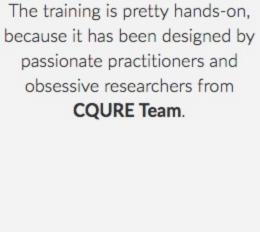

You'll only learn things that will

Shares

in

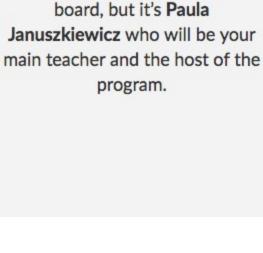

Cyberday

Only NEW tools and

techniques

Only cool presenters!

We'll bring a bunch of experts on

Microsoft

# **COURSE FORMULA**

### Action packed

You'll go through 12 modules in 6

**LIVE Trainings** 

You'll join our 2-hour long live

classes on a special interactive

platform - happening twice a week at 7PM CET (10AM PST /

1PM EST).

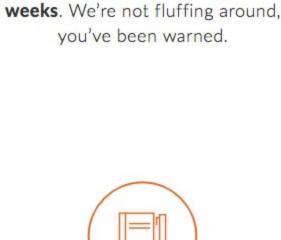

After every class you'll be able to ask questions.

Interactive classroom

access to a special training platform where you can safely test your hacks.

The Training Lab

During the course you'll have

### extra materials and homework for each session.

We've prepared for you slides,

Extra materials

Social & Network You'll become a member of a closed Facebook group, where you can not

12-month Access

You'll get a full year of online

access to all the recordings (counted from the first class).

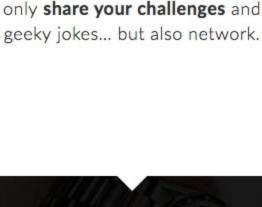

Once a Year Only

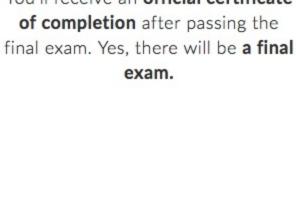

We organise this course only once

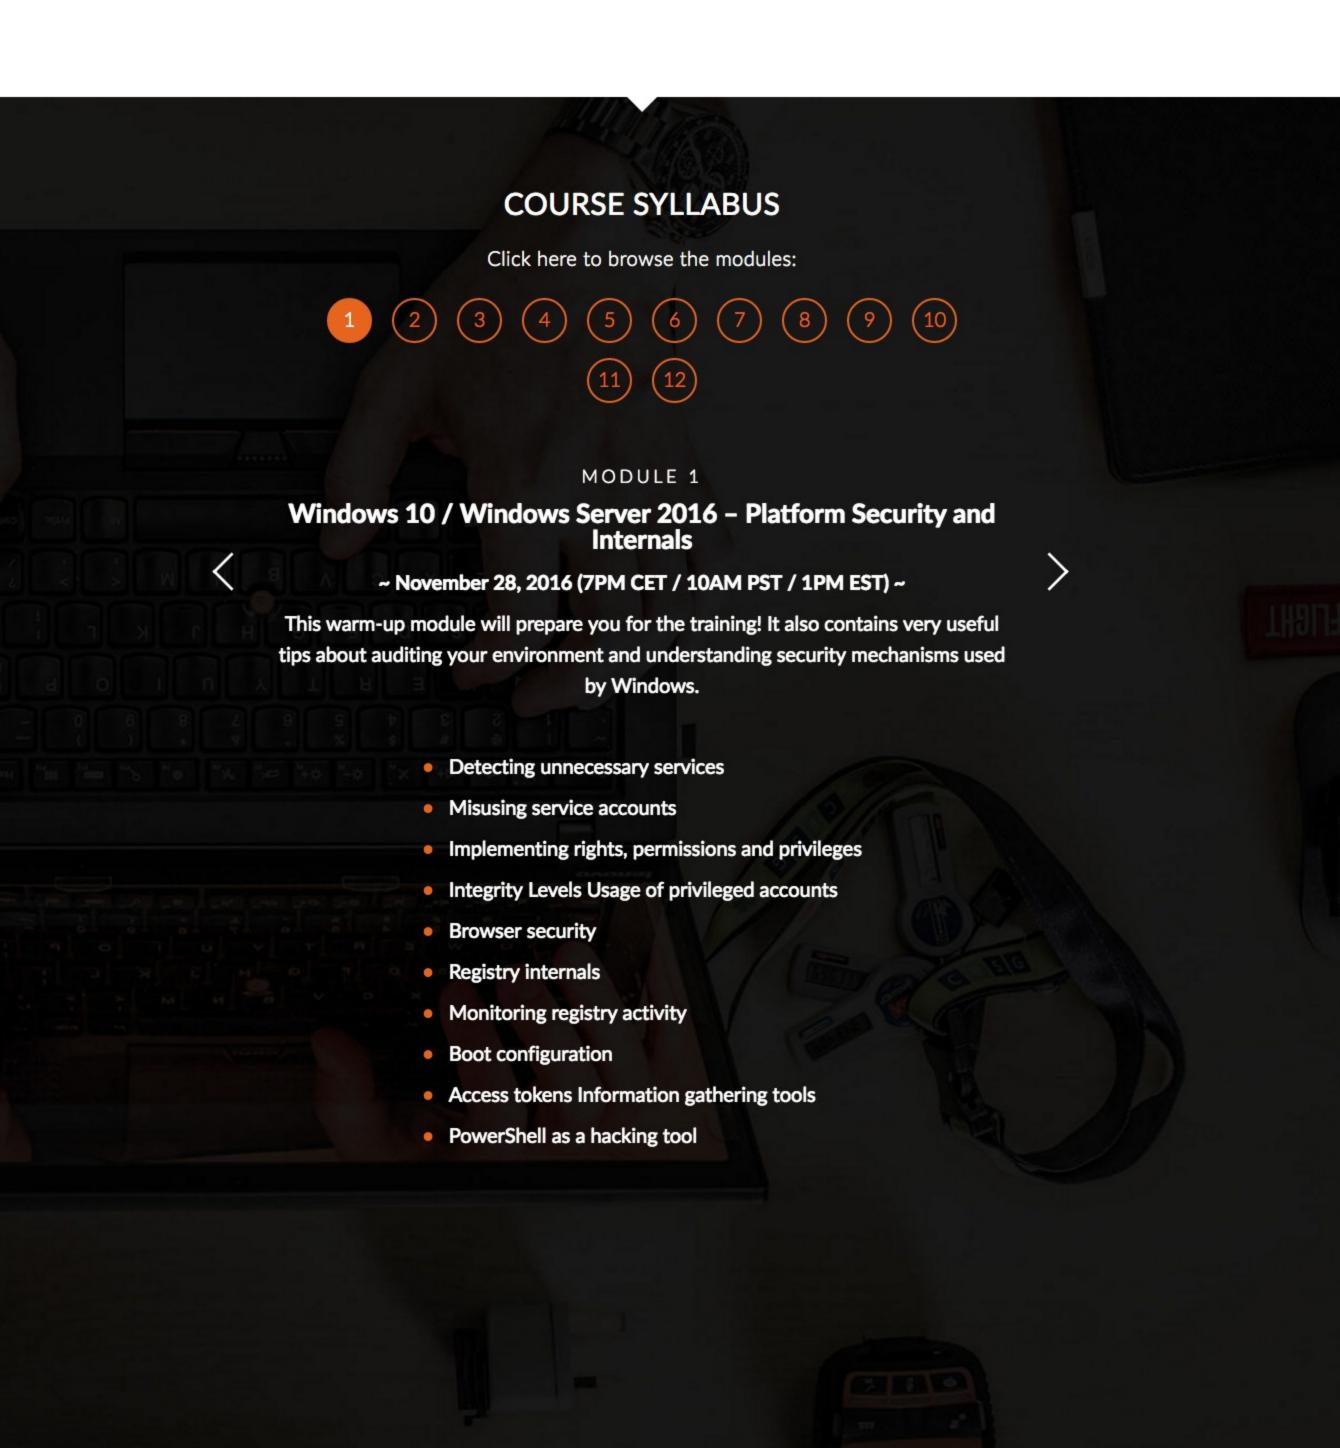

a year, in its last quarter. Every

next edition is updated with new

Credentials You'll receive an official certificate

minute. 🧐

Paula is a Microsoft Security Trusted Advisor, IT Security Auditor and Penetration Tester. On top of that, she's an Enterprise Security MVP and trainer (MCT). She shares her expertise on Windows Security through online writing and speaking at conferences (she already checked off TechEd North America, TechEd Europe, TechEd

Middle East, RSA, TechDays, CyberCrime — to name but a few). She proudly holds the role of the Security

Greg has been working with Windows Security since the very beginning of his professional career. He started

as a system administrator, then moved to a consultant role, IT manager and chief information security officer

(CISO). Now he is mainly responsible for consulting services delivered worldwide by CQURE.

PLEASE NOTE: There will be an online final exam covering all 12 modules. To receive an official certificate of completion

you have to get at least 70% of the answers right. We highly recommend that you don't leave the revision until the last

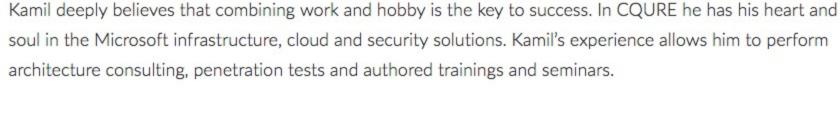

YOUR TEACHERS

### **Greg Tworek** DIRECTOR OF CQURE

Architect in IDesign and manages her own company CQURE.

Paula Januszkiewicz

FOUNDER AND CEO OF CQURE

SENIOR INFRASTRUCTURE & SECURITY EXPERT

from CheckPoint, Fortinet and SonicWall.

Michał Jankowski-Lorek

**CLOUD SOLUTIONS & MACHINE LEARNING EXPERT** 

Kamil Bączyk

Chris Pietrzak INFRASTRUCTURE ARCHITECT & SECURITY EXPERT Chris is a true geek that follows the maxim: everything is possible it is just a matter of time! As for day-to-day

work at CQURE he designs and implements solutions for Security, Network & Management area, mainly for

various platforms, he is an architect for various network solutions from HP and CISCO, and edge solutions

Michael designs and implements solutions for Databases, Network & Management area, mainly for Microsoft

platform. As for day-to-day work, he works as Solution Architect, designing and planning database related

solutions and software, mainly based on Microsoft and Oracle servers. He also designs and administers IT

Infrastructure based on Microsoft systems and network solution from CISCO.

WHO IS IT FOR

**Ethical Hackers** 

(who are familiar with...)

If you're not sure where are you at, you can quickly

test yourself by taking Paula's Security Quiz >>>

(If you score 13 points and above — this training is for you)

Intermediate to Advanced

Windows Security Professionals

Let me start by saying Paula is

amazing!! The passion for the topic

really shows. As an engineer with 16

years of experience, I am impressed.

Thank you for the education, and entertainment.

Dave Kordyban

NETWORK ENGINEER | GARRETT COUNTY

GOVERNMENT

This program is for you, if you want to level up Attendee needs to have general fluency in If you are a newbie you can still apply, but the and become key expert in your company (or Windows environment (including security program WILL NOT cover the basics — so it might be really challenging for you to get in or even in your field). We promise to challenge skills, penetration testing etc.) Active your ways of thinking and executing. Directory related knowledge is required. Take to keep up with the group. the quiz to see where are you at.

**Brave Newbies** 

We have learned a lot about IIS,

hacking and much much more. Our

motivation has increased during this

course and of course great interest in

your work Paula. Impressed with your

enthusiastic energic way of

presenting.

**CSC NORWAY** 

watch them perform, so Paula makes Windows purr like a little kitten. Even

course. Intense, deep and revealing. As it also happened before, Paula Januszkiewicz knows how to blow your mind. As great athletes make their discipline look easy when you

Course by CQURE Academy is a great
